Professional Summary

Cybersecurity undergraduate with hands on experience in Security Operations Center (SOC), SIEM monitoring, log analysis, threat detection and network security. Experienced with Wazuh, Splunk, Linux administration and security-focused projects involving firewall automation and incident investigation. Passionate about Security Operations, Threat Hunting and Incident Response with strong analytical and problem-solving skills.

Education

SRM Valliammai Engineering College 2022–2026
Bachelor of Engineering in Cyber Security *CGPA:8.7*
Government Higher Secondary School, Sanaveli 2020–2022
Higher Secondary Education *Score:90%*

Experience

SOC Intern 2025
Big Bucks Innovation Pvt. Ltd., Chennai
- Set up Wazuh to collect logs from Windows/Linux systems and monitored security events through the dashboard.
- Built custom detection rules to identify suspicious logins and unusual process execution during lab exercises.
- Analyzed security alerts, reviewed system logs and investigated potential threats in SOC environment.

Projects

Real-Time Dynamic Firewall Configuration for Home Devices | *Linux, nftables, Python*
- Built a dynamic firewall using nftables that updates security rules based on network activity.
- Tested the firewall by simulating different types of network traffic and blocking suspicious connection attempts.
- Learned Linux networking, firewall management, and how automated rules can improve system security.

Security Monitoring Lab | *Wazuh, Splunk, Windows, Linux*
- Set up Wazuh to collect logs from Windows and Linux machines for centralized monitoring.
- Created detection rules to identify failed logins, suspicious processes, and other security events.
- Reviewed alerts, analyzed logs and investigated security events to understand how SOC analysts detect threats.

Technical Skills

Security Operations: Threat Detection, Log Analysis, Security Monitoring, Incident Response, Malware Analysis
SIEM: Splunk, Wazuh, ELK Stack
Networking: TCP/IP, DNS, DHCP, TLS/SSL, HTTP/s, Packet Analysis, IDS/IPS, Firewalls, VPNs, WAFs, EDR
Tools: Wireshark, Nmap, Burp Suite, whois, MITRE ATT&CK Framework, OWASP Top 10, Virustotal, Jira
Programming & OS: Python, Bash | Linux(Ubuntu, Kali), Windows

Certifications

SOC Level 1 Certification TryHackMe
- Completed hands-on training in SOC operations, log analysis, threat detection, alert triage, incident investigation and SIEM fundamentals.

IBM Security Operations Center (SOC) Analyst IBM SkillsBuild
- Learned security monitoring, incident response, threat intelligence, network security and the day-to-day responsibilities of a SOC analyst.

Achievements

Completed 100+ hands-on cybersecurity labs on TryHackMe and Portswigger - covering SOC operations, Windows and Linux security, networking, web security, and incident investigation.
Secured First Prize in the Mini Project Expo at SRM Valliammai Engineering College (2025).
Successfully organized the CODETRIX technical event in collaboration with WhiteHatians Club.
